Finish	Smooth Matte (Anti-fingerprint & Scratch-resistant)
Core	Moisture resistant MDF
Origin	Germany
Environment	MDF - E1 Rating

Ideal Uses

- Kitchen Fronts & Cabinetry
- Joinery Projects
- Commercial cabinetry
- Laundry Cabinetry

Handling & Application/ Melaboard panels are not suitable for use in exterior applications or interior projects where the moisture content would be higher than normal (for eg. a indoor pool or sauna). Melamine has excellent water resistance properties however care should be taken not to expose the edges to high moisture applications. Melaboard panels are low maintenance, cost effective and easy to clean.

Maintenance & Cleaning/ The Perfect Matte surface is protected with a PE protective film (transparent film). After removal of the PE protective film, the surface is ready for daily use. Additional polishing is not necessary. A mild soap solution is sufficient for cleaning. Important: The use of abrasive cleaning and scouring agents can result in damage. Do not use cleaning agents which contain alcohol, are abrasive or corrosive.
